

## BLC 36 - WEEK SIX: 2/14 - 2/20 - The Amazing Race!

The Amazing Race is the Weekend Challenge for this week! The challenge will run for 7 days instead of the usual 4 from Wednesday thru Tuesday. Post your Weekend Challenge scores, according to your team's guidelines, by midnight on Wednesday, February 21st. You will still report your LCW on Tuesday – you may use your fitness minutes from the race as your LCW.

There are 20 destinations. On Wednesday morning, you'll begin traveling to the first destination. Moving from one destination to the next is achieved by exercising for a total of **20 minutes** **AND** completing a challenge. You can break up your exercise - it does not have to all be done in one session. For those who exercise for more than **20 minutes**, since you could travel to more than one destination a day, each challenge may be completed *throughout* the day for every **20 minutes** of exercise. For example - if you do a 60 minute run on Wednesday, you must complete the first THREE Challenge activities before you can move onto the next destination on Thursday . If you do 120 minutes of exercise on Wednesday, you will need to do the first SIX challenges. In this example, the first SIX challenges do not have to be done in order but instead can be done *throughout* the day. Travel down the list and do not jump around!

If you exercise more than **20 minutes**, you can count those minutes toward your next destination ***FOR THAT DAY ONLY.*** Only completed blocks of exercise can be counted - if you have 45 minutes in one day - you may count 40 of those minutes. If you exercise 70 minutes, you can count 60 minutes - the 10 minutes do not carry over to the next day. A challenge may include a Sparks video, a quiz or an article to read. Once you complete the challenge, you can mark off the destination as complete – you earn 10 points. Modify any challenge if needed.
